

Client Appreciation

-This months Client Appreciation Story is about our Dear friend, Dear Client, and what we call “Health Partner” Ms. Lynn Kelly Jones! Ms. Kelly has been with La La Love Healthcare since January 31st 2016! When we first met Ms. Kelly she said she had met with a few other agencies before meeting with La La Love and she said that the reason she chose La La Love was because she can tell that we are passionate about what we do and she loved what our agency was built upon and what our agency represents. Ms. Kelly stated, “In my 30 plus years experience with Home Health Agencies, La La Love is the only company to always go the extra mile for me.” A year later, La La Love struggled to find the right staff to accommodate Ms. Kelly and her family so like any other Client it was her right to seek services elsewhere. Ms. Kelly then stated, “The only mistake I made was leaving La La Love short term...I came right back to their arms wide open!” We understand that finding the right aide to accommodate our clients is very important. We ask that you “partner” with us in making sure our aides know that they are not only appreciated but they are also needed! Your Health is our PRIORITY! Without good aides, theres no good care, and without good care, theres no good Agency! Please feel free to write a review either about the agency and our performance in the office or about your aide/aides and their performance on the job! Again we appreciate your patience and support!- Sincerely, your fellow “Health Partner”.

A Message from the CEO

-“Hello fellow “Health Partner”! I would like to start this message off by thanking you for being the most important part of our Healthcare Family! Without your trust and faith in us, it would be impossible to build such a wonderful and meaningful Home Health Agency! Again, we take pride in what we do and in our mission and we would like to continue to show our gratitude towards our clients. With the Holiday months approaching, La La Love Healthcare would like to give A Special Gift to our clients or “Health Partners”. Our wonderful nurses will be delivering these gifts to all of our partners over the next few weeks. We are growing and we are learning every single day. Our mission is to give our partners the GREATEST gift of all, our LOVE! Again, please contact our office with any questions or concerns regarding your care. We are all in this together, and we are all on the same team fighting for the same purpose! We are all BLESSED!

!”-Tish Weaver-Bennett, CEO La La Love Healthcare LLC
